home automation  
touch switches

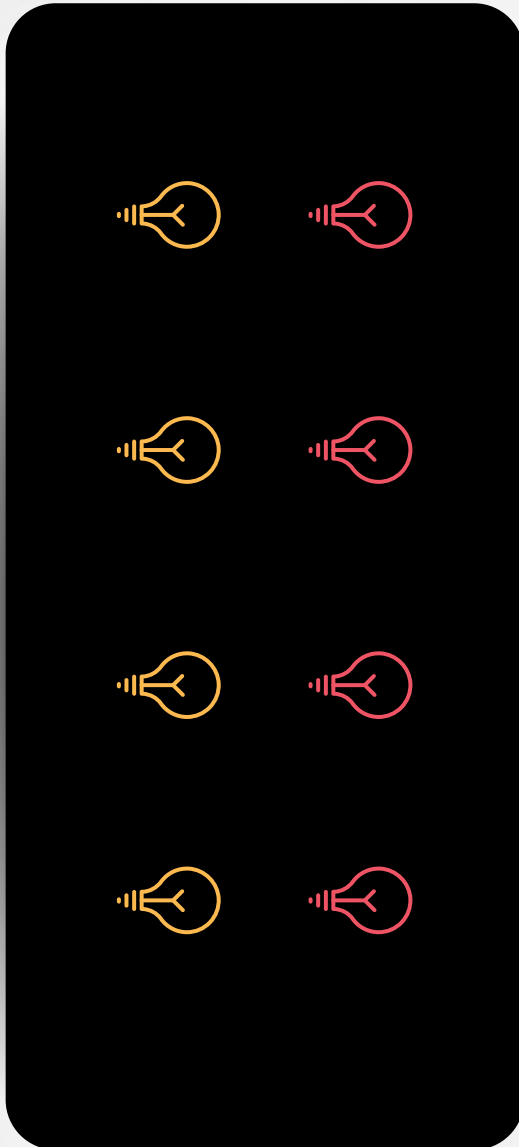

# About Company

Since 2015 Homenexa has given switch manufacturing a new identity in India. It has introduced path breaking innovations and accessories like new generation smart touch switches with modular fitting, home automation with panel, Bluetooth operated smart touch switches, home security products, switchgears and brilliant contemporary range in automation that have transformed people's lives tremendously. With a strong research & development team, along with an equally dedicated and capable product design team, homenexa has been catering to various household and commercial needs of customers across the country. Through constant innovation, homenexa has become the market leader in touch switches and home automation industry.
